***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The prior art of record single or in combination failed to teach the combination of the invention as claimed in independent claims 1, 12, 14, and 15.

For example it fail to teach "generating a release database entity that identifies a relationship between the data attribute delivery settings and the physical media file via a media database entity associated with the physical media file; generating a location data set that indicates a location of the physical media file, whereby the location facilitates the retrieval of the physical media file by a client computer" which clearly support by the specification pages 12-17. The feature mentioned above in light of other features of the independent claims 1, 12,14 and 15 enable claims' allowable.

The dependent claim further limit the independent claims and are considered allowable on the same basis as the independent claims.

**Claims 1-6, 12-16 are allowed.**

**Claims 7-11 are cancelled.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
